Dear Sir:

An Electronic IDS for US Patent Documents was filed simultaneously with this paper IDS transmission on June 9, 2003. Since the fee was paid with the Electronic IDS filing of the US documents and the paper transmission filing is filed simultaneously, no additional fee is required.

The references listed in the attached PTO Form 1449, a copy of which is attached, may be material to examination of the above-identified patent application. Applicants submit this reference in compliance with their duty of disclosure pursuant to 37 CFR §§1.56 and 1.97. The Examiner is requested to make this citation of official record in this application.

This Information Disclosure Statement is not to be construed as a representation that a search has been made, that additional information material to the examination of this application does not exist, or that this reference indeed constitutes prior art.

This Information Disclosure Statement is being filed after the mailing date of the first Office Action on the merits, or after three months of the filing date of this application, whichever event occurred last, but it is believed before the mailing date of either: (i) a final action under §1.113 or (ii) a notice of allowance under §1.311, whichever occurs first.

No fee is required since the required fee was paid on June 9, 2003 with the Electronic IDS filing of the U.S. Documents. However, if it is determined that any additional fees are due, the Commissioner is hereby authorized to charge such fees to Deposit Account 500388 (Order No. VISAP016).

Respectfully submitted,
